

Scrum #3 stand up questions

What have you done?

- Lazlo - Updated cucumber tests for search history and miles radius
- Veda - nothing
- Kayla - added the rainbow mouse glitter trails
- Cindy - Helped Alex finish pagination
- Alex - Finished individual pagination resolved merge conflicts for conflicting latest features

What are you going to do?

- Lazlo - Cucumber tests for pagination, rainbows, possibly look into grocery list
- Veda - fix travis / database in general, start refactoring changes
- Kayla - need to fix the tables and rainbow background for the manage list, restaurant, and recipe pages
- Cindy - Continue to work on HTTPS
- Alex - Continue work on pagination

What are you blocked on?

- Lazlo - Not yet sure how grocery lists are supposed to work
- Veda - nothing
- Kayla - my sign in isn't working so I need help with SQL stuff before I can work on the UI for the pages after search
- Cindy - https isn't working with tomcat; I couldn't get it to work
- Alex - can't get any more than 4 pages or results... can't do Pagination centering without more results
