

Scrum #3 stand up questions

What have you done?

- Lazlo - Wrote cucumber tests for search radius, added default value of 1000 to radius textbox, removed cucumber tests for background color
- Veda - Finishing authentication
- Kayla - Made the sign in and sign up pages “pretty”, made comic sans the font for all text, and made all the pages look like they are in a night mode setting.
- Cindy - finished adding the radius and changing the tests for them, finished the backend implementation for saving searches to database, help do the backend for pagination
- Alex - Finished pagination feature

What are you going to do?

- Veda - Bugfixes and test cases
- Kayla - I need to create a table within the search page to display the search history that Cindy did the backend for.
- Lazlo - Manually test new features and write cucumber tests
- Cindy - Finalize testing for having searches to database, help fix bugs for pagination
- Alex - Fix bugs with pagination feature

What are you blocked on?

- Veda - nothing :)
- Lazlo - New sign in page has broke the cucumber tests, I need to figure out how to make tests start on search page
- Kayla - My sign in and sign up pages are not working properly so I’m unable to navigate through the pages right now.
- Cindy - Slight merge problem for pagination
- Alex - Need to review corner cases that Cindy discovered with pagination feature
