Scrum #4 stand up questions

What have you done?

- Lazlo - Remade collage. Wrote cucumber tests for pagination, table-hover, and signing up. Documented tests in cucumber/new_tests_proj2.txt
- Veda - Working on docs
- Kayla - With the help of Veda, fixed the issues with mySQL and was able to sign up and sign in. Added the hover highlight feature for the blocks within each table and set up the table UI to display search history.
- Cindy - Help fixed the merge problem we had the other day and wrote the sprint planning for the Spring 1 report
- Alex - Fixed merging issues, pagination works now

What are you going to do?

- Lazlo - Create new cucumber tests for search history, and more tests for current features
- Veda - Finish white box tests and write doc page about it
- Kayla - Make the search history table prettier and start figuring out how to reorder the items on the list on the frontend. Work on the documentation.
- Cindy - Finalize the spring planning section of the report, and fix the bug with having a small radius
- Alex - Help Kayla reorder lists on frontend.

What are you blocked on?

- Lazlo - Nothing
- Veda - Nothing
- Kayla - I don't understand how the reordering of the predetermine lists will work with respect to the backend.
- Cindy - Nothing
- Alex - Work with Veda or Cindy to ensure feature cooperates with backend
