Scrum #2 stand up questions

What have you done?

- Lazlo - Read through code, committed scrum #1 materials
- Veda - Filled out tasks and subtasks.
- Kayla - Created the radius box on the search page.
- Cindy - I implemented the backend for adding the radius to I'm Hungry.
- Alex - successfully set up dev environment, close to getting pagination to work

What are you going to do?

- Veda - Start task 1, user auth
- Kayla - Make the UI more aesthetic and modern.
- Lazlo - Write cucumber tests for search radius feature
- Cindy - Adding MySQL database for task #3
- Alex - finish pagination and polish it

What are you blocked on?

- Veda - eh nothing today :)
- Lazlo - Figuring out how to run cucumber outside of VM
- Kayla - I need to learn a bit more Bootstrap so I can make all the pages look more attractive.
- Cindy - Waiting on front end to finish the radius box
- Alex - need Cindy's help to debug why the request object is throwing exceptions; it's preventing completion of pagination
